Part 3 Development Plan under the Development Act 1993

The development plan is proposed to be amended by the following ministerial Development Plan Amendment(s) as outlined below. Contact Planning Services Branch in the Department of Planning, Transport and Infrastructure for further details

The DPA proposes changes to the planning policies used in the assessment of development proposals in 'activity centres' such as commercial and retail centres, shopping strips, business precincts, high streets and town centres. The changes are intended to support greater business opportunities, flexibility, competition and certainty. The DPA affects suburban and regional areas of Greater Adelaide and all 25 development plans in the region, excluding the City of Adelaide. For more information and to view the DPA online visit the Existing Activity Centres Policy Review Development Plan Amendment webpage at www.sa.gov.au/planning/ministerialdpas. This note appears against all properties within the Greater Adelaide Region (excluding the City of Adelaide) but the DPA applies directly only to the above described areas.

Electricity Infrastructure - Building Restrictions and Statutory Easements

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DMITRE for further details.

Statutory easements

Separate from the above restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation. This notice does not necessarily imply that any statutory or other easement exists. However, where in existence, statutory easements provide these businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

A statutory easement is not generally registered on the title for the land.

To avoid risking injury and damage, it is recommended that the location of underground services be confirmed by telephoning Dial-Before-You-Dig on 1100.

For further clarification on these matters, please contact SA Power Networks' Real Estate Branch on telephone 8404 5897 or 8404 5894.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Natural Resources Management Act 2004

Water Resources Management - Taking of underground water

Under the provisions of the *Natural Resources Management Act 2004*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should contact the Department on the telephone number below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the General Specifications for well construction, modification and abandonment in South Australia

Further information may be obtained by contacting the Department of Water, Land and Biodiversity Conservation, Level 1 Grenfell Centre, 25 Grenfell Street, Adelaide or on telephone 8463 6898.
